PROFILE

I am Abdul Aqil Mustaqim bin Abdul Aziz, a final-year student pursuing a Bachelor of Information Technology (Honours) in Business Computing. Currently in my eighth semester, I am preparing for my internship, eager to apply my technical and business computing skills in a real-world environment. Passionate about technology-driven solutions, I have experience in software development, database management, and project management. I am self-dicipline to continuous learning and problem-solving, aiming to contribute effectively to any organization I join.
